

Three Full-time Faculty Position (Open Rank position)

at the LATIN AMERICAN BRAIN HEALTH INSTITUTE (BrainLat)

Universidad Adolfo Ibáñez, Santiago, Chile

Institution: Universidad Adolfo Ibáñez

Location: Santiago, Chile

Category: Multi-Faculty

Type: Full-time

Salary: Commensurate with experience

Starting Date: March 2022

Faculty Position: Universidad Adolfo Ibanez (UAI) invites applicants for an open-rank, full-time, tenured or tenure-track position beginning March 2022 to be part of the new Latin American Brain Health Institute (BrainLat). Screening of applications will begin immediately and remain open until the position is filled.

Background: The overarching mission of BrainLat will be to empower a new generation of health leaders to break down disciplinary boundaries and forge innovative approaches for promoting **brain health in their communities and reducing the global impact of dementia**. BrainLat brings together leading national and international institutions in brain science, including the UAI (School of Psychology, Faculty of Engineering and Science, School of Government and School of Business), the Geroscience Center (GERO), the Memory and Neuropsychiatry Clinic of the University of Chile (CMYN). BrainLat aims to be affiliated with the Global Brain Health Institute (GBHI) at the University of California San Francisco (UCSF) and Trinity College of Dublin (TCD). Supported by this network, the institute will conduct world-class interdisciplinary and translational research with real-world implications, train new researchers, and disseminate evidence to broad audiences.

Position objectives: The UAI requests and supports emerging leaders in brain health, aging, dementia, and cognitive neuroscience. We seek candidates with a strong record that is appropriate to their rank and proven capacities to establish successful research collaborations. We encourage applications from individuals of diverse backgrounds, including *cognitive neuroscience, economics, epidemiology, social determinants of health, public policy, law and ethics, clinical/neuroscience, biomedicine, translational neuroscience, psychology, genetic studies, data science, biostatistics, statistical engineering*.. Priority will be given to candidates with the ability to **conduct interdisciplinary and collaborative research** on Brain Health or aimed to reduce the scale and impact of dementia in Latin America.

Application: Applicants should submit a curriculum vitae, letter of application, and two references to email letters separately. The application process will be open until November 30th, 2021. Questions and all application materials should be e-mailed to Dr. Agustín Ibáñez, at brainlat@uai.cl
